

Foam Control

Anti Foaming Agent

AN ANTIFOAM – DISPERSIBLE CONCENTRATE. FORMULATED TO REDUCE FOAMING IN THE TANK MIXTURE

Foam control increases productivity by easing handling difficulties. It effectively knocks down persistent foam in your spray applicator/tank.

PACKAGING

10 x 1 qt Jugs
Case treats: 50,000 gal of spray mixture.

APPLICATION TIMING

Foliar

SHELF LIFE

2 years

RATE

0.64 fl. oz/100 gal

STATE AVAILABILITY

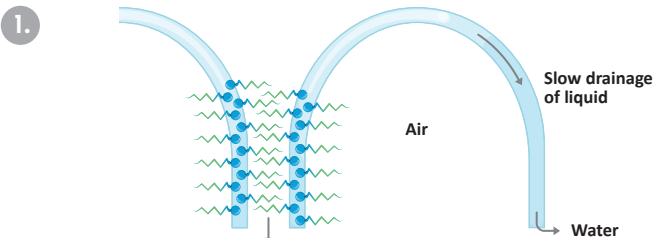

Available in all states except:
AL, AR, CA, ID, KY, MD, MS, TN, UT,
WA, WV, WY.

COMPATIBILITY:

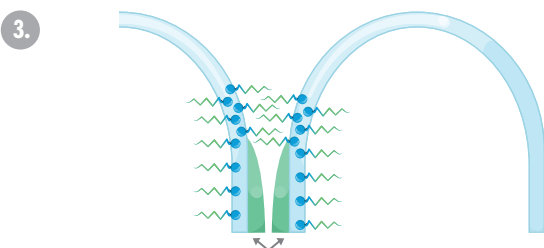

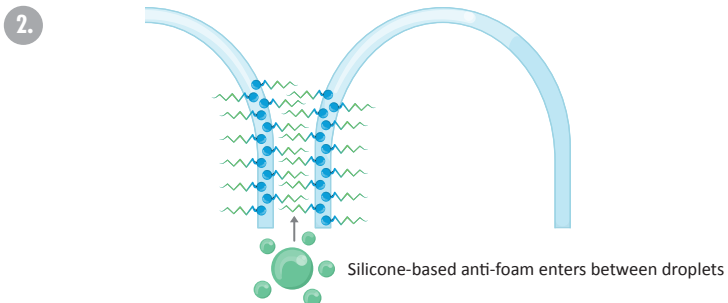

Compatible with most fertilizers and chemical treatments. Contact an MBFi representative for the latest compatibility chart.

ADVANTAGES

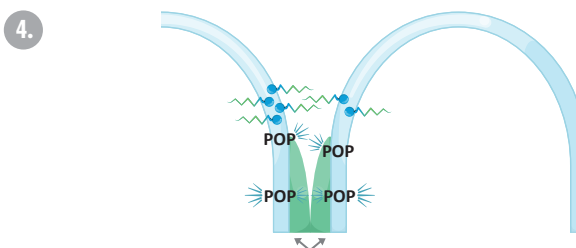

- Ultra-low use rate
- Extremely effective
- Disrupts the stability of air bubbles

Surfactants stabilize and prevent the coalescence of air bubbles

Anti-foam spreads, pushing away stabilising surfactant nodules

Ruptures caused by anti-foam bridging

Precautionary statements:

Read the label before use. If medical advice is needed, have a product container or label nearby. Wash protective equipment and work clothes thoroughly after handling the product.
