WARNING / AVISO

Si Usted no entiende la etiqueta, busque a alguien para que se la explique a Usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

This fertilizer is to be used only on soil which responds to Molybdenum (Mo). Crops high in Molybdenum (Mo) are toxic to grazing animals (ruminants).

PRECAUTIONARY STATEMENTS

Read the label before use. If medical advice is needed, have a product container or label at hand. Wash hands thoroughly after handling. Wear eye protection and face protection. Avoid breathing fumes/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash protective equipment and work clothes thoroughly after handling.

GENERAL INFORMATION

Turbo-Seed® is a nutritional supplement that aids seedling emergence and vigor and additionally aids seed flow in the planter. Turbo-Seed® is to be applied as a seed treatment prior to planting, in planter hoppers.

DIRECTIONS FOR USE

Use before the expiration date. One measuring scoop, included, holds approximately 2 oz Turbo-Seed®. **When utilizing commercial seed treatment equipment**, refer to the calibration information of the equipment being used to achieve the desired application rate. Using a separate dispensing mechanism from other treatments being applied, apply Turbo-Seed® at the endpoint after the last liquid product has been treated and before the polishing drum. **For planter box treatment**, apply Turbo-Seed® directly to seed in the planter hopper and add sufficient product to the seed according to the below dosage rates. Mix the treatment a few times with a paddle to ensure thorough coverage of the seed. Protect treated seed from direct sunlight. Turbo-Seed® may be applied in combination with other seed treatment products. Contact an MBFi representative for the latest compatibility chart and recommendations on the use of these compatible product combinations.
