

SAXSYM™

PRIORITY® DS WHEAT & CEREALS

HOPPER BOX DRY SEED TREATMENT BIOSTIMULANT AND SEED FLOW AID FOR WHEAT AND CEREALS.

Priority DS Wheat and Cereals contains a naturally occurring, symbiotic, non-pathogenic *Trichoderma asperellum* fungus. It is a dry seed treatment biostimulant and seed flow aid that supports enhanced plant growth by solubilizing soil nutrients rendering them more accessible to plants, stimulating increased root development and improving plant growth.
